

October 12, 2026

Hello,

I wanted to reach out and share an opportunity to get involved with an organization I serve with, Sitgreaves Community Development Corporation (SGCDC).

SGCDC is a nonprofit serving communities throughout Navajo and Apache Counties, focusing on workforce and attainable housing, early childhood education and childcare, and improving access to essential community resources. The organization works closely with local schools, healthcare organizations, governments, nonprofits, businesses, and other community partners to develop solutions that respond to the needs of our rural communities.

As SGCDC continues to grow, we are looking to add individuals to our Board of Directors who care about our communities and can bring their experience, ideas, connections, and perspective to the organization.

I've attached a Board Member Interest Packet that provides more information about SGCDC, what board service involves, and the application process. If you're interested, please complete the packet and return it to our Executive Director, Allison Hephner, info@sgcdc.org

Please also feel free to share this opportunity with someone you think would be a great fit for SGCDC and the work we are doing.

Thank you for considering it. I hope you'll take a look and learn more about the organization and the opportunity to be involved.

Sincerely,

[Board Member's Name]
Board Member
Sitgreaves Community Development Corporation
